# IT'S PASSED EVERY OTHER TEST. WILL IT PASS YOURS?

The American Federal Register defines the toughest rules on car safety in the world. BMW consider them far too soft.

As a result, the new BMW 3 Series exceeds their standard in a head-on collision by 36%.

Rather than develop the chassis and suspension on an ordinary road, we went to the Nurburgring – a race track considered too demanding for Formula One – and used that.

The next test was Britain's motoring press.

"A tough act to follow" was Fast Lane's verdict. A nice summation of the lavish praise all round. But none of this matters until you test the new BMW 3 Series yourself. Judging on past performance, it will surpass your expectations.
